POLIECO
GROUP

A member of the Italian group Industry POLIECO – M.P.B. S.p.A., is a leading manufacturer and designer of high-density polyethylene, double-wall, corrugated pipe systems, serving large sewerage distribution networks and electromechanical projects in Greece and abroad, while continuously expanding its export activities. The company's production lines at the Industrial Area of Serres are characterized by innovation and cutting-edge technical solutions resulting in the production of high-quality products at competitive prices. The factory manufactures ECOPAL, the double wall co-extruded pipe for use in underground drain projects and ground stormwater drainage, as well as underground cable conduits – under the trade name CAVIDOTTO – for electrical power networks and photovoltaic parks. In addition, the factory designs and manufactures to order special fittings and manholes for sewer networks, offering an innovative and completely sealed network system, while being able to execute even the most demanding and urgent orders with speed and flexibility.
In 2012 the group launched the new series of KIO manhole covers from the innovative Kinext composite material, which contributes to the protection of the environment as it has 70% less plastic and limits the release of CO2 in the environment.
Looking ahead, Polieco Hellas remains dedicated to innovation, international growth, and the creation of long-term value for its clients, partners and employees, while contributing to the advancement of society through sustainable and eco-friendly solutions.

VENCIL LTD

Your Greek Preference in Pharmaceutical Cosmetics

Established in 2010, VENCIL LTD is a fast-growing Greek company active in the development and production of high-quality cosmetics and nutritional supplements. Guided by a strong vision and a team of expert partners, we aim to set new standards in the field—combining pharmaceutical precision with consumer appeal.
Our product lines are widely recommended by healthcare professionals and loved by end users. They address a wide range of pharmaceutical needs with formulas that combine innovation, safety, and effectiveness.

Why VENCIL?

- Transparency, adaptability and business ethics are characteristics that distinguish all our activities and transactions
- Strong presence in pharmacies and pharmaceutical wholesalers nationwide
- Continuous R&D for the introduction of new products

Our Mission

To offer a high-quality experience through every product and service we offer. We build long-term relationships with clients and suppliers based on integrity, accountability, and a deep commitment to excellence.

Expanding Horizons

With a successful track record in the Greek market, we are actively seeking international partners to grow our export activity even more. If you represent a distributor, a pharmacy chain, or a cosmetics group with a passion for high-quality, science-driven customer care, we would love to explore collaboration opportunities with you.

Let's grow together—with trust, respect and professionalism.

MARBLE - GRANITE

DIMIOU G. CO.

COSTAMAR is a well established marble & granite company located in Drama - Kavala region of Northern Greece and it is the outcome of a successful partnership between four people with strong backgrounds, experience and know-how in all the spectrum of marble industry, such as production, elaboration and sales.

The company was founded during the first days of 2005 clearly as a trade office but very soon passed into the sections of elaboration and production with participations, sharing and buyouts of various quarries in the greater area of Drama and the completion in 2011 of a brand new facroty above the Industrial Area of Drama.

In general, the company is active in quarrying, elaboration, and sale of processed and unprocessed marble, granite, and other stone products in all over the world, with specialism in the production and elaboration of white and semi-white types of marble (mainly Greek).

SINCE 1952

One of the most important Greek industries in the field of tile and brick manufacture.

Today **XALKIS S.A.**, having a history of half a century and two manufacturing plants, one in Vassiliko, in Evia, **manufacturing roofing tiles** and one in Schimatari, in Viotia, **manufacturing bricks**, is one of the most important Greek industries in the field of tile and brick manufacture with a daily production of 150.000 tiles and 900 tons of bricks respectively.

Quality guarantee

The company is constantly seeking quality, follows all advancements of technology and continuously modernizes its facilities.This is the reason it has obtained and implements **ISO 9001:2015** and **ISO 14001:2015** Quality Management System for the design and production of its products.

The products of **XALKIS S.A.** are in conformity with **the largest European quality control standards set** for the quality control of fired clay roofing tiles and bricks. Constant internal monitorings and inspections by certified laboratories (for the quality control of the clay products), guarantee the best quality.

PARAVALOS

CREATIVITY & CONSTRUCTION

Paravalos & Sons G.P. is a leading engineering and metal construction company based in Aspropyrgos, Greece, with over 100 years of experience in the industrial, marine, and refinery sectors.

We specialize in custom-made metal fabrications and mechanical constructions, combining traditional craftsmanship with modern engineering technology.

Our 8,000 sq.m. production facility is fully equipped with heavy-duty rolling, forming, cutting, and welding machines, allowing us to execute complex projects with precision, quality, and reliability.

Every stage of production - from design to final inspection - is performed under strict quality standards.

Core Capabilities

- Fabrication of storage tanks, including dished /elliptical heads, shells, and manholes/doors.
- Profile bending and forming, such as box sections (RHS/SHS), angles, HEB/IPE beams, and flat bars.
- Pipe forming and shaping for refineries, industrial installations, and shipbuilding constructions.
- Plate forming and rolling for ship components and heavy marine structures.
- Special metal parts and custom mechanical fabrications in compliance with ASME, DIN, and ELOT standards.
- We design and interpret 3D mechanical drawings using SolidWorks, ensuring full compatibility between design and production.
- This integration of engineering and manufacturing guarantees accuracy, efficiency, and consistent quality in every project.
- Our experienced team of engineers and technicians provides turnkey metal solutions to clients in Greece and abroad, maintaining long-term partnerships built on trust, quality, and technical excellence.

PARAVALOS

CREATIVITY & CONSTRUCTION

Paravalos & Sons G.P. is a leading engineering and metal construction company based in Aspropyrgos, Greece, with over 100 years of experience in the industrial, marine, and refinery sectors.

We specialize in custom-made metal fabrications and mechanical constructions, combining traditional craftsmanship with modern engineering technology.

Our 8,000 sq.m. production facility is fully equipped with heavy-duty rolling, forming, cutting, and welding machines, allowing us to execute complex projects with precision, quality, and reliability.

Every stage of production - from design to final inspection - is performed under strict quality standards.

Core Capabilities

- Fabrication of storage tanks, including dished /elliptical heads, shells, and manholes/doors.
- Profile bending and forming, such as box sections (RHS/SHS), angles, HEB/IPE beams, and flat bars.
- Pipe forming and shaping for refineries, industrial installations, and shipbuilding constructions.
- Plate forming and rolling for ship components and heavy marine structures.
- Special metal parts and custom mechanical fabrications in compliance with ASME, DIN, and ELOT standards.
- We design and interpret 3D mechanical drawings using SolidWorks, ensuring full compatibility between design and production.
- This integration of engineering and manufacturing guarantees accuracy, efficiency, and consistent quality in every project.
- Our experienced team of engineers and technicians provides turnkey metal solutions to clients in Greece and abroad, maintaining long-term partnerships built on trust, quality, and technical excellence.

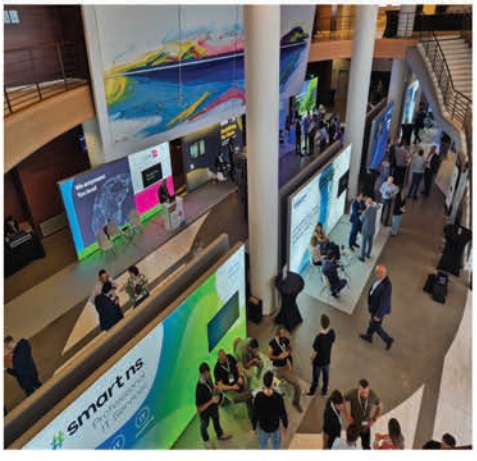
display your vision



At **Multiplo**, we design and manufacture **modular exhibition stands** and **booths** that grow alongside your business in every **expo arena**, ensuring ensuring an imposing presence, without unnecessary costs.

Turn your exhibition stand into an investment, not an expense.

- **Adaptability:** the same aluminum frame can be configured into countless layouts and structures - large or small - to deliver a tailored solution for every exhibition.
- **Efficiency:** A reusable system that minimizes construction time and cost, offering long-term value.
- **Dynamic presence:** Prints can be changed effortlessly, giving your brand a completely fresh look with every exhibition.
- **Sustainability:** a smart solution that limits single-use materials and significantly reduces your environmental footprint.
